Course Description

K-2 Spanish Curriculum Guide

World language education provides learners with the essential language skills and cultural understandings necessary to live and work in a global, culturally diverse world. This course will develop the ability to communicate in the target language through listening, speaking, reading and writing practices. Students will learn to appreciate foreign cultures by developing an understanding of cultural similarities and differences, celebrating holidays, and appreciating art, dance, and music from the target cultures. All lessons should be aligned to the New Jersey Student Learning Standards. Teachers will use a multitude of approaches to promote student growth, including whole group, small group, and individual teaching techniques in the classroom that incorporate technology.
